I. The Separate Books of the
Quran and the Letters of the
Quran read by A Indian Man
who is reflection of
Mohammad

In the near present,
contemporary world, Averroes
used to argue that in fact a
Prophet arrives.

He is a reflection of Mohammad
but more Kabbalistic though fully
contemporary and like a modern
film maker or discotheque
person.

II. How to Be Averroes
Following

- I. Arabic Patterns – Option A
- II. French Patterns – Option B
- III. A Mix of Arabic and French Patterns – Option C

Start with something cool and then become Arabic and organic language process.

“It is creative, this music I listen to, and then in Allah, it means just to keep walking and talking, even being a bit French about the whole thing, how to just walk into a discotheque and such things as Averroes would argue, play out the night in a pure sense of creativity, and faith is that type of acting and action.”
